SKILLS & COMPETENCIES

Experienced
- React JS
- JavaScript
- Next JS
- Tailwind CSS

Comfortable
- TypeScript
- Node JS
- MongoDB
- Git or GitHub

Familiar
- Express JS
- Redux
- Next-Auth
- Firebase

Novice
- Prisma ORM
- SCSS

PROJECTS SHOWCASE

Wislio
Live site view · Client code endpoint · Sever code endpoint

This application is designed to seamlessly manage a book library by empowering a librarian-role user.
- Delivered responsive design, dynamic theme toggle, and captivating slider animations using the Swiper JS library.
- Implemented secure Firebase authentication and server-driven authorization using JWT tokens for enhanced system integrity. Exclusive CRUD access for the librarian-role user.
- Enabled seamless data synchronization with server-side through REST API, enhancing user experience with optimized loading stages.

React · Tailwind CSS · Firebase · Swiper JS · Tanstack Query · Express · Mongoose · JWT

Eventful Bliss
Live site view · Code endpoint

It's an event management organizer website, unveiling organizers' spectacular events and event planning.
- Dynamic intro animation, ensuring responsiveness, and Implemented a captivating parallax scrolling effect on the homepage.
- Firebase authentication, safeguarding private routes through dynamic client-side rendering for robust protection.

React · Tailwind CSS · Firebase · Formik

Volt Realm
Live site view · Client code endpoint · Sever code endpoint

Volt Realm—an affiliate e-commerce web app. It seals top-brand products.
- Guaranteeing a seamless experience with responsive design, dynamic theme toggle, and a robust 'Add to Cart' feature.
- Empowered by Formik, enforced robust form validation, ensuring Firebase authentication integration with precise error messaging for reliability.

React · Tailwind CSS · Firebase · Swiper JS · Formik · Express · MongoDB
